

Air Purification System

Tough on dust, tougher on odors.

OXYGEN ULTRA
with PLASMAWAVE™

BEAM
AIR PURIFICATION SYSTEMS

 Electrolux

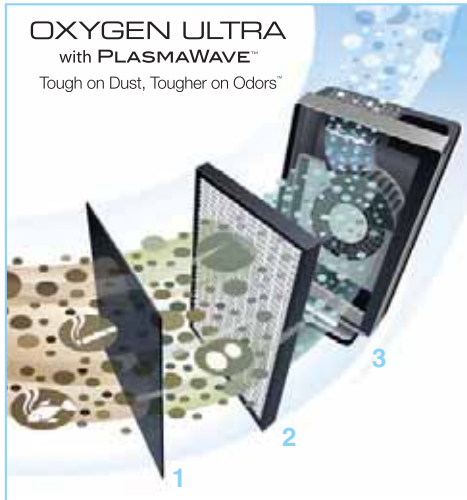

**Clean deep, breathe deeper.
Remove impurities from the air.**

The Oxygen Ultra Air Purification System features PlasmaWave™ technology which neutralizes bacteria and odors in your living space.

This ultra quiet air cleaner is easy to maintain, fits stylishly in any living space and is powerful enough for large rooms and homes.

Features:

3 Stage Filtration

1. Carbon Filter Reduces Powerful Odors

The passing air moves through a Carbon Filter that removes larger odor particles such as dust, mold, and cigarette smoke.

2. HEPA Filter Captures Airborne Pollutants

The HEPA Filter removes 99.97% of dust, pollen, pet dander and other airborne pollutants at 0.3 microns, in the passing air.

3. PlasmaWave™ Neutralizes and Freshens the Air

The PlasmaWave™ Technology eliminates remaining odors and bacteria in the air.

- ▶ 3 stage filtration at true HEPA level with dust and odor sensors
- ▶ Unique PlasmaWave™ technology provides maximum odor control
- ▶ Odor alert sensor automatically adjusts to odor level
- ▶ Automatic and multiple manual modes, including remote control
- ▶ Energy-Star rating for low energy consumption
- ▶ Great for large rooms and homes
- ▶ Attractive contemporary design
- ▶ Integrated carrying handle
- ▶ Whisper quiet

Designed for large rooms - 405 ft² (38m²)

Reduce harmful germs that cause
asthma and allergies,
as well as reducing pet odors.

PlasmaWave™ technology works hard to attack and destroy airborne odors. HEPA filtration captures 99.97% of airborne dust, allergens and odors. Pet owners and those suffering from allergies will breathe easier with **Oxygen Ultra with PlasmaWave™**.
