

Air Purification System

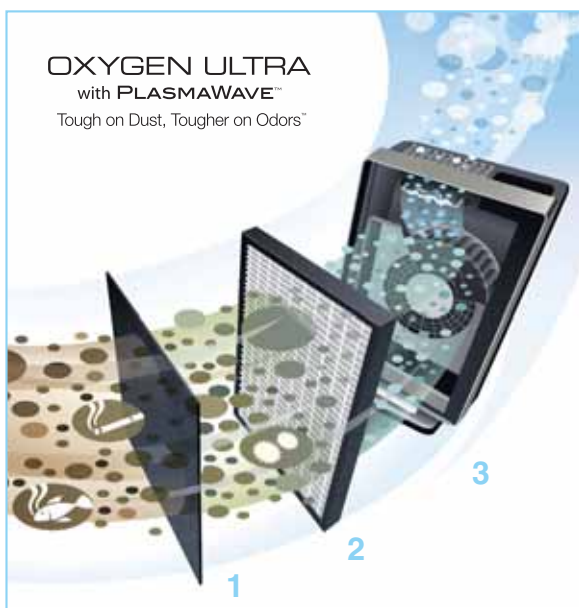

OXYGEN ULTRA with PLASMAWAVE™

- ▶ 3 stage filtration at true HEPA level with dust and odor sensors
- ▶ Unique PlasmaWave™ technology provides maximum odor control
- ▶ Odor alert sensor automatically adjusts to odor level
- ▶ Automatic and multiple manual modes, including remote control
- ▶ Energy-Star rating for low energy consumption
- ▶ Great for large rooms and homes
- ▶ Attractive contemporary design
- ▶ Integrated carrying handle
- ▶ Whisper quiet

Tough on dust, tougher on odors.

Designed for large rooms - 405 ft² (38 m²)

3 Stage Filtration

1. Carbon Filter Reduces Powerful Odors

The passing air moves through a Carbon Filter that removes larger odor particles such as dust, mold, and cigarette smoke.

2. HEPA Filter Captures Airborne Pollutants

The HEPA Filter removes 99.97% of dust, pollen, pet dander and other airborne pollutants at 0.3 microns, in the passing air.

3. PlasmaWave™ Neutralizes and Freshens the Air

The PlasmaWave™ Technology eliminates remaining odors and bacteria in the air.

Specifications:

Models:	BM500AZ, UK500AZ
Power	220-240 V / 50/60 Hz
Power Rate	Low 6W, Turbo 125W
CADR Rating	261
Room Area Served	405 ft ² (38 m ²)
Sound Level	26.0, 34.3, 38.5, 51.2, 57.1 dB
Filtration	Carbon, HEPA, PlasmaWave™
Fan Speeds	5
Control Type	Auto/Manual
Dimensions HxWxD	62 cm x 45cm x 26cm
Weight	8.6 kg
Color	White / Metallic Silver

What is PlasmaWave™?

As the filtered air exits the unit, it passes through a corona discharge (a type of electric pulse), creating both negative and positive ions (plasma). When plasma combines with water vapor in the air, hydroxyls are formed. These hydroxyls bond with and neutralize remaining airborne pollutants - including viruses, chemical gasses, bacteria and other germs.
